Objective

A motivated and passionate fresher engineering student with strong foundational skills in Python full-stack development, C, C++, Data Structures, Algorithms, SQL, and the Microsoft Office Suite. Eager to contribute effectively to development teams and leverage my technical abilities to solve complex problems.

Education

- ➢ **Diploma in Computer Engineering**
  Jamia Millia Islamia
  2022-25

- ➢ **Relevant Coursework**

  - ❖ Data Structures and Algorithms

  - ❖ Database Management Systems

  - ❖ Full-Stack Development with Python

Technical Skills

- **Programming Languages:** Python, C, C++

- **Web Development:** HTML, CSS, JavaScript, React.js, Node.js

- **Databases:** SQL, MySQL

- **Office Tools:** Microsoft Word, Excel, PowerPoint

- **Frameworks:** FastAPI, Django (for Python full-stack)

Projects

- **Online Voting System**

  - Developed a secure online voting application using FastAPI and Python.

  - Implemented user authentication and authorization to protect voter privacy.

- **Portfolio Website**

  - Built a responsive portfolio website to showcase skills and projects.

  - Integrated contact forms and animations to enhance user experience
